

TAVA SURGICAL
Orthopaedic
POWER SYSTEM

OPS GEN II™

The TAVA Surgical Orthopaedic Power System OPS GEN II is a high performance large bone battery powered system. The new technologically advanced design provides the optimal amount of torque and speed required for large bone surgical applications.

- Ergonomic Angled Handpiece Design
- Sealed Electronics
- Modular Drill/Reamer Handpiece
- Single Trigger Multi-Function Modular Handpiece
- Dual Purpose Reciprocator/Sternum Saw
- Unobstructed Saw Blade Visibility
- Highest Torque on Market*
- Highest Speed Range on Market*
- Open Platform Sagittal Head
- Battery Options – 9.6V and 12V
- Enhanced Table Top Stability
- Variable Speed Control
- Reduced Vibration
- Reduced Noise Level
- Lightweight
- Superior Balance
- Enhanced Reliability
- Maintenance Free

*Compared to Stryker® System 6 and Linvatec® Power Pro®/MPower®
